DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 23, 2007 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 4-8 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As noted in the Final Rejection (5/1/07) with regard to claim 4, line 10, states, "a support frame", however line 3 positively recites a frame. Is the "support frame" recited in line 8, the same as the frame recited in line 3? If not, how do these elements interrelate? If so, Examiner suggests, --said frame--.

If the frame and the support frame are not operably connected, neither the originally filed specification nor the drawings provide support for plural embodiments, i.e. both frame and support frame integral or operably connected and an embodiment wherein the frame and support frame are not integral or operably connected. Clarification is required.

Allowable Subject Matter

Claims 7-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if any 35 U.S.C. 112 rejections were overcome.
